

TIPS & TRICKS

HOW TO PURCHASE A SURVEY

If a historical private survey is available for a property it will be identified by a **P** for Private in the **Plans & Surveys** section of the **Property Report**.

A Property Survey Image may be an image of the Survey Plan portion of a Surveyor's Real Property Report, Building Location Survey, or other unregistered/undeposited Survey Plan provided by a third party surveying firm.

- Select the Plan and then **Buy**.

- A **Product Details** window will open and indicate the cost of the survey (cost may vary).
- There is a **Low Resolution Preview Image (Click to enlarge)** available for some plans.
- Select **Add to Chart** or **Quick checkout**.
- If you select **Quick checkout** you will be directed to the checkout page where you may enter the payment information.
- Select **Finalize Order** and you will be directed to the transaction confirmation page where you may view the Plan by selecting **Download Products**.
- A copy of the Plan will be sent to your email and there will also be a link to access it in the Downloads section of your Account.
