

## Tips & Tricks

### How to Request a Registered Plan

You can request a plan that is registered or deposited in the Land Registry Office from the Plans, Surveys & Easements section of the Property Report.

To request a registered plan from a Property Report:

1. Select the **Plan, Surveys & Easements** from the grey banner at the top of the property report.
2. Select the Plan and then **Buy**.

The screenshot shows the 'Plans, Surveys & Easements' section of the GeoWarehouse website. The page includes a navigation bar with 'Help', 'Feedback', and 'Training'. Below the navigation bar is a search bar and a breadcrumb trail: 'Back', 'Overview', 'Property Details', 'Site & Structure', 'Valuation & 1', 'Plans, Surveys & Easements', 'HoodIQ™ Data', and 'Demographics'. The main content area is titled 'Plans, Surveys & Easements' and features a map on the left and a list of plans on the right. The list includes:

Year	Plan Type	Price	Action
1964	Legal Survey	\$500*	Buy
1962	PLR Reference Plan		Buy
1962	PLSUB Plan of Subdivision		Buy

A green box with the number '2' highlights the 'Buy' button for the 1962 PLSUB Plan of Subdivision. Below the map, there is a section for 'Easements' with a 'Support' button. The text below the 'Easements' section reads: 'The Protect Your Boundaries™ Easement Indicator detects that there may be 1 easement on this property.'

3. Select **Purchase Image** in the first Property Details window.
4. Select **Add to Cart** or **Quick checkout** from the next Product Details window.
5. If you select **Quick checkout** you will be directed to the checkout page where you can enter the payment information.
6. Select **Finalize Order** and you will be directed to the transaction confirmation page where you can view the Plan by selecting Download Products.
7. A copy of the Plan image will be sent to your email and there will also be a link to access it in the Downloads section in your Account
