

## How to identify if there is an easement on a property

We are pleased to introduce an Easement Indicator that will alert you to the presence and number of easements on a property's title.

The Easement Indicator can be found in the Plans, Surveys & Easements section of the property report.

For more information regarding the easement you may purchase a *Parcel Register* or a *PYB Easement Report* by selecting the corresponding link below the indicator.

*Note: The Parcel Register will be available for download and a copy sent to your email once the purchase is complete.*

*The request for the PYB Easement Report will be sent to Protect Your Boundaries™ to fulfil the report. Fulfillment of reports may take 2-3 business day. A copy will be sent to the email address in your request and a link to download the report will be available in the Downloads section of your Account.*

*To check the status of your request go to Recent Downloads under **Account>My Account** and select **View Status**.*
